NOTES:

- The Service Provider representative should coordinate beforehand with the DICT Regional Team the sites to be accepted including the schedule availability.
- The creation of acceptance advisory form (AAF) will then be initiated by the service provider representative by providing to the Regional Wi-Fi Team (RWT) the details to be inputted in this form. The approval of this AAF is then facilitated by the RWT, and returned back to the service provider for their checking and signing. The service provider should then send the signed AAF (on their part) to the RWT for final signing. The RWT should then attach the signed AAF in the broadcast of acceptance/UAT to the DICT Regional Wi-Fi Team.
- The DICT RWT should then coordinate the sites indicated in this AAF to their concerned provincial teams (and also forwarding and/or printing this AAF). The DICT RWT should coordinate as well the site coordinators to inform them about the upcoming acceptance/UAT.
- The DICT Witness/Representative and Service Provider Representative should adhere to the sites indicated in this AAF for acceptance.
- Once all the sites are completed, the DICT Regional Team should provide a detailed summary of the acceptance - which acceptance of sites are **completed** (including the date of when it was completed), **failed**, and **did not proceed** - on a per site basis.
